

2010年普通高等学校招生全国统一考试(四川卷)

英语试卷

【名师点评】2010年高考英语四川卷试题结构保持不变。紧扣“大纲”、“说明”，体现了“有利于高校选拔人才，有利于高中英语教学”的基本原则。完形填空、阅读、短文改错，均能够牢牢抓住语篇及应用这个中心。语法和词汇知识部分知识点考查较全面；完形填空材料难度适中，题目设置层次分明，具有较强的区分度。阅读理解文章本身的难度和答题设计的层次真正起到了考查考生语言能力、拉大考生距离的选拔功能。对话选择部分选材大众化，选项的设置也有较好的区分度。短文改错的材料难度和错误的设置难度与往年基本持平。写作命题切合学生实际，写作要求明确，但在一定程度上限制了学生的自由发挥。

第二部分 阅读理解(共两节，满分50分)

第一节

阅读下列短文，从每题所给的四个选项(A、B、C和D)中，选出最佳选项，并在答题卡上将该项涂黑。(共20小题；每小题2分，满分40分)

A

I grew up in a house where the TV was seldom turned on and with one wall in my bedroom entirely lined with bookshelves, most of my childhood was spent on books I could get hold of. In fact, I grew up thinking of reading as natural as breathing and books unbelievably powerful in shaping perspectives (观点) by creating worlds we could step into, take part in. and live in.

With this unshakable belief, I, at fourteen, decided to become a writer. Here too, reading became useful. Every writer starts off knowing that he has something to say, but being unable to find the right ways to say it. He has to find his own voice by reading widely and discovering which parts of the writers he agrees or disagrees with, or agrees with so strongly that it reshapes his own world. He cannot write without loving to read, because only through reading other people's writing can one discover what works, what doesn't and, in the end, together with lots of practice, what voice he has.

Now I am in college, and have come to realize how important it is to read fiction (文学作品). As a law student, my reading is in fact limited to subject matter—the volume (量) of what I have to read for classes every week means there is little time to read anything else. Such reading made it all the clearer to me that I live in a very small part in this great place called life. Reading fiction reminds me that there is life beyond my own. It allows me to travel across the high

seas and along the Silk Road, all from the comfort of my own armchair, to experience, though secondhand, exciting experiences that I wouldn't necessarily be able to have in my lifetime.

41. What can be inferred about the author as a child?

- A. an idea
- B. a sound quality
- C. a way of writing
- D. a world to write about

43. What effect does reading have on the author?

- A. It helps him to realize his dream.
- B. It opens up a wider world for him.
- C. It makes his college life more interesting.
- D. It increases his interest in worldwide travel.

44. Which of the following can be the best title of this text?

- A. Why do I read?
- B. How do I read?
- C. What do I read?
- D. When do I read?

B

Boiler rooms are often dirty and steamy, but this one is clean and cool. Fox Point is a very new 47-unit living building in South Bronx, one of the city's poorest areas. Two-thirds of the people living there are formerly (以前) homeless people, whose rent is paid by the government. The rest are low-income families. The boiler room has special equipment, which produces energy for electricity and heat. It reuses heat that would otherwise be lost to the air, reducing carbon emissions (碳排放) while also cutting costs.

Fox Point is operated by Palladia, a group that specializes in providing housing and services to needy, people. Palladia received support from Enterprise Community Partners (ECP), which helps build affordable housing by providing support to housing developers.

ECP has created national standards for healthy, environmentally (环境方面) clever and affordable homes which are called, the Green Communities Standards. These standards include water keeping, energy saving and the use of environmentally friendly building materials. Meeting the standards increases housing construction costs by 2%, which is rapidly paid back by lower running costs. Even the positioning of a window to get most daylight can help save energy.

Michael. Bloomberg, New York's mayor, plans to create 165,000 affordable housing units for 500,000 New Yorkers. Almost 80% of New York City's greenhouse-gas emissions come from buildings, and 40% of those are caused, by housing.. So he recently announced that the city's Department of Housing and Preservation and Development (DHPD) , whose duty is to develop and keep the city's supply of affordable housing, will require all its new projects to follow ECP's green standards.

Similar measures have been taken by other cities such as Cleveland and Denver, but New York's DHPD is the largest city developer of affordable housing in the country.

45. What is the purpose of describing the boiler room in the first paragraph?

- A. To explain the measures the city takes to care for poor people.

- D. To compare old and new boiler rooms.

46. What is an advantage of the buildings meeting the Green Communities Standards?

- A. Lower running costs.
- B. Costing less in construction.
- C. Less air to be lost in hot days.
- D. Better prices for homeless people.

47. It can be learned from the text that,

- A. New York City is seriously polluted
- B. people's daily life causes many carbon emissions in New York City
- C. a great number of people in New York City don't have houses to live in

D. some other cities have developed more affordable housing than New York City

48. What is the main purpose of this text?

A. To call on people to pay more attention to housing problems.

B. To prove that some standards are needed for affordable housing.

C. To ask society to help homeless people and low-income families.

D. To introduce healthy, environmentally clever-and affordable housing.

Somali pirates(海盜) robbed three Thai fishing ships with 77 sailors on board nearly 1, 200 Miles off the Somali coast, the farthest-off-shore attack to date, an officer said Tuesday.

Pirates have gone farther south and east in answer to increased patrols(巡邏)by warships off the Somali shore. The robbing of the three ships Sunday was about 600 miles outside the normal operation area for the international force, said a spokesman.

The spokesman said the attack so far out at sea was a clear sign that the international patrols against pirates were having a “marked effect on pirate activity in the area”.

“Once they start attacking that far out, you’re not even really talking about the Somali basin or areas of water that have any connection with Somalia,” said an officer, Roger Middleton. “Once you’re that far out, it’s just the Indian Ocean, and it means you’re looking at trade going from the

Gulf to Asia, from Asia to South Africa.”

“This is the farthest robbing to date. They are now operating near the Maldives and India,” said another officer.

The three ships--the MV Prantalay 11, 12, and 14—had 77 members on board in total. All of them are Thai, the spokesman said. Before the Sunday robbing, pirates held 11 ships and 228 sailors.

Pirates have increased attacks over the past year in hopes of catching more dollar payments. Because of increased patrols and defenses on board ships, the success rate(率)has gone down, though the number of successful attacks has stayed the same year over year.
